

**Thank you for purchasing our Protection & Detox Set: #1: Chemicals, Metals,  
Pollution, Radiation & Viruses**

I hope this will help bring peace to your heart and healing and protection to you and your loved ones. This set was inspired by the steps a local naturopathic clinic takes where they take Influenzinum once a week as a preventative measure for the flu. They have been using this strategy successfully for years. We, too, have incorporated using Influenzinum weekly during times where the flu is going around with success.

During a sleepless night, the thought came to me, if Influenzinum, taken on a weekly basis, can be that effective at preventing the flu, what about the option of taking other homeopathic remedies that are known to be just as effective but are used for other preventative and detoxing measures for issues like heavy metal toxicities, chemical exposure, pesticide exposure, dust, pollen, and plants sensitivities – and so much more?

It was during that night that the idea for our Detoxification and Protection sets were born. Initially I was just creating the idea for my own family and felt that I had hit on something important and very valuable. And then I realized that if I'm this excited about this for MY family, some of you might want this for your family as well.

**The set you purchased is SET #1. This set includes the following mixed homeopathic formulas:**

- 1. Pollution, Toxins & Synthetics**
- 2. Chemicals & Heavy Metals**
- 3. Acute & Underlying EBV**
- 4. EMF & Radiation Detox & Protection**
- 5. Flu, Viruses & Thymuline**
- 6. Full Body Boost, Drainage & Detox**

This set was carefully formulated to help protect and detox the body from the following substances / issues (and more):

**#1: Antibiotics, formaldehyde, petrochemicals, air pollution, water pollution, heavy metal pollution, organic chemical pollution, and light pollution. Also car fumes and inner car toxins. Also synthetic perfumes and fragrances.**

**#2: Household chemicals like bisphenol, petroleum, Teflon, glyphosate and parabens. Also bleach, plastics, BPA, mercury, chemicals, pesticides, insecticides, and food additives. Also**

industrial and environmental contaminants and other heavy metals such as cadmium, nickel, aluminum, titanium, and stainless steel.

**#3: Past or recent exposure to EBV (Epstein Barr Virus).**

**#4: EMF exposure, X-Ray exposure, carbon dioxide exposure. Also exposures to cadmium, radium, and uranium. Also exposure to microwaves, television, or other household radiation. Also for geopathic stress effects including sensitivity to the weather.**

**#5: Flu and enterovirus exposure. Plus Thymuline to help the body create T-cells, which helps the body fight viral infections.**

**#6: Enhances the body's natural immune response. Supports the detoxification of the liver, brain, adrenals, heart, lungs, lymph, kidneys, spleen, thyroid, and intestines.**

### **DOSAGE INSTRUCTIONS**

#### **1<sup>st</sup> Time User:**

Week One: 1 dropperful, in water, 2 x per day for 7 days. (Take 20 minutes away from any food or liquids.)

Then do preventative measures protocol.

#### **For Preventative Measures:**

1 dropperful, in water, 1 x per day, once a week. (Take 20 minutes away from any food or liquids.)

#### **For Recent Exposure(s):**

1 dropperful, in water, 2 x per day for one week. Then do preventative measures protocol.

*Note: If you're using both of the Protection & Detox Set #1 **and** Set #2, use them on different days. For example take one dropperful of each of the 6 formulas in set #1 on Sunday. Then take one dropperful of each of the 5 formulas in set #2 on Monday.*

I hope this set will greatly benefit you and/or your family.

Claudia
